This is a fantastic 1 bedroom plus loft, 1 bath townhome. It truly is a great skiing location.

It is ideally located on Blackcomb Mountain, with ski-in, ski-out trails less than 100 meters from the door and at times you can literally ski out of your front door. Located close to the village, but far enough away to ensure some peace and quiet, it is the ideal vacation spot. A free village shuttle (which runs every 6-7 minutes throughout winter) stops meters away, and can take you to the base of either mountain, or to Whistler Village.

The 850 square foot home features a fully equipped kitchen, bathroom, a sun-deck with barbeque, and access to an outdoor communal hot tub. The unit is finished in a modern fashion, is bright and airy and has designer Italian furniture throughout.
